

# Atmospheric OCS

## OCS

Seawater concentration

Fairly well known  
(~6000 measurements)

Processes

Hydrolysis – H

Photoproduction – L/M

Dark production - M

## CS<sub>2</sub>

Seawater concentration

Poorly known  
(~1500 measurements)

Processes

photoproduction – L

Dark production – L

Degradation – L/M

## DMS

Seawater concentration

Well known  
(>40 000 measurements)

Processes

Biological production – H

Degradation - H

Level of understanding: H – high, M – medium, L - low
